

Below is just a selection of our adult programs. For our full listing of programs, please view our events calendar.

FEATURED PROGRAM

Intermediate-Level Spanish Language Classes

Intermediate-Level Spanish Classes
Saturdays from January 25 - February 22
[Main Library](#)
[Registration Required](#)

Want to improve your Spanish language skills? Join Spanish U at Main Library for a 5-week intermediate level class starting on Saturday, January 25th! These classes are designed for global citizens and lifelong learners. A free workbook is included! Registration for this program is required.

This program is made possible through a grant from the [Durham Library Foundation](#).

FEATURED PROGRAM

Light, Cameras, Astronomy

Lights, Cameras, Astronomy: An Exploration of the Application of Light in the Arts and Sciences
Saturday, January 25, 3 - 4 p.m.
[Main Library](#)
[Registration Required](#)

Explore light through the study of the celestial in this program with Reilly, a PhD student from UNC's Physics and Astronomy department! This event will begin with a 30-40-minute talk with interactive activities and demonstrations about important developments in photography and physics, discussing how these innovations have impacted the arts and our understanding of the cosmos. This event also features a curated physical fine arts photography exhibition comprised of works from various local artists. This program is intended for a general adult audience, though interested teens are welcome to attend.

FEATURED PROGRAM

Fantastic Fermentation with Ment Beverage Co.

Fantastic Fermentation with Ment Beverage Co.
Tuesday, January 14, 6:30 - 8 p.m.
[Offsite at Ment Beverage Co., 312 Blackwell St, #103](#)
[Registration Required](#)

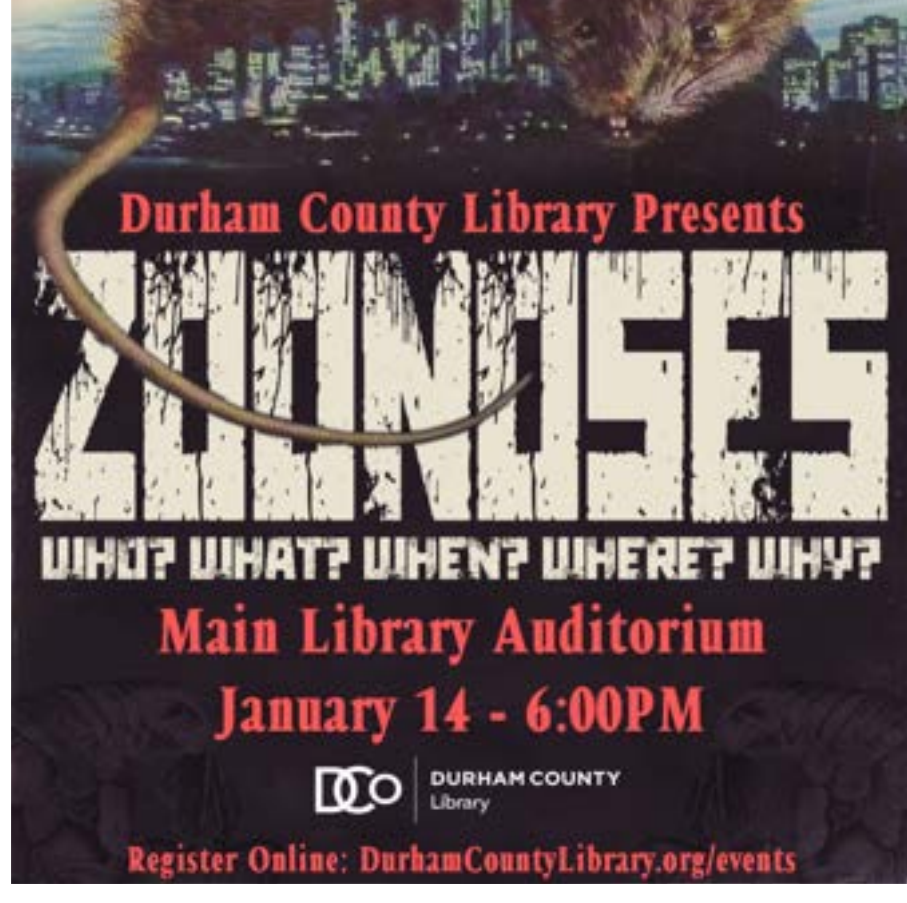

Join the Maker + STEAM team at Ment Beverage Co. for Fantastic Fermentation! Discover the real-life version of alchemy. Learn how the fermentation process can truly transform the properties of many different foods and beverages. It's for so much more than beer! In this program, we'll discuss the various uses of fermentation in mead, ciders, sake, and more. The program will run for about an hour with a Q&A session immediately following. This program is offsite, and registration is required.

FEATURED PROGRAM

Zoonoses: Who, What, Where, When, and Why?

Zoonoses: Who, What, Where, When, and Why?
Tuesday, January 14, 6 - 7 p.m.
[Main Library](#)
[Registration Required](#)

Rabies! West Nile Fever! Toxoplasmosis! Rocky Mountain Spotted Fever! These conditions are zoonoses, a type of disease that can be passed from animals to humans. What types of diseases can jump from animals to humans? Who infects who? Why do diseases spread between humans and animals? When does disease transmission happen? Where are you most likely to be infected? How do humans contribute to disease transmission? All these questions and more will be answered at this event.

Contact: Megan Koslowski, mkoslowsky@dccon.gov

FEATURED PROGRAM

Durham Grown: Foraging and Mushroom Hunting Meetup

Durham Grown: Foraging and Mushroom Hunting Meetup
Saturday, January 4, 10 - 11 a.m.
[Main Library](#)
[Registration Required](#)

Interested in foraging and mushroom hunting? Know a great paw paw patch? Enjoy chicken of the woods? Love snacking on dandelions before mowing the lawn?

Come out to the Main Library for a foraging and mushroom hunting meet up! Connect with other adults over your favorite spots, best recipes, and favorite foraged plants and mushrooms. This is a great opportunity to meet people interested in foraging and mushroom hunting in the area and make plans for the new year!

Contact: Megan Koslowski, mkoslowsky@dccon.gov
