

Below is just a selection of our adult programs. For our full listing of programs, please view our events calendar.

FEATURED PROGRAM

## A Discussion for Safer Sports

A Discussion for Safer Sports  
Monday, July 21, 5 - 7:30 p.m.  
[Main Library](#)  
[Registration Required](#)

This unique and innovative event aims to raise awareness in the community about sports injuries, educate about the role of athletic trainers, highlight efforts to make sports safer, and promote athlete health and safety ahead of August and the football season.

FEATURED PROGRAM

## Beavers!

Beavers!  
Tuesday, July 29, 6 - 7 p.m.  
[Main Library](#)  
[Registration Required](#)

Which European government saved one million dollars when beavers engineered a dam overnight? Why are beavers so territorial? When were beavers parachuted out of planes in Idaho? What is the function of a beaver's tail? Where can you find beavers in North Carolina? Who threatens beavers?

Join Falyn Owens, Wildlife Extension Biologist with the North Carolina Wildlife Resources Commission, to learn more about these rodent engineers!

Contact: Megan Koslofsky, [mkoslofsky@dcnc.gov](mailto:mkoslofsky@dcnc.gov)

FEATURED PROGRAM

## Psychic Research and Cold War Espionage

Psychic Research and Cold War Espionage  
Saturday, July 5, 2 - 3 p.m.  
[Main Library](#)  
[Registration Required](#)

Join Durham County Library and The Rhine Research Center for a very special presentation on Remote Viewing, its history as a subject of top-secret government research and espionage, and current research on the subject happening in Durham and elsewhere. There will also be a live workshop in which audience members will have a chance to try Remote Viewing techniques for themselves alongside researchers from The Rhine Research Center.

FEATURED PROGRAM

## Farming with Nature

Farming with Nature  
Saturday, July 12, 10 - 11 a.m.  
[Main Library](#)  
[Registration Required](#)

Can a farm rely entirely on beneficial insects and birds for pest control? How does a farm balance food and flower production with insect conservation? What can you do to build habitat and diversify the plants, insects, and bird life in your green space?

Join Renee Clayton of Wild Scallions Farm, for a discussion of what regenerative farming looks like on a local vegetable, fruit, and cut-flower farm with a focus on insect conservation.

Contact: Megan Koslofsky, [mkoslofsky@dcnc.gov](mailto:mkoslofsky@dcnc.gov)
