Computer Classes @ Main Library

Computer Classes at Main Library

Wednesdays in January

[Main Library](#)

[Registration Required](#)

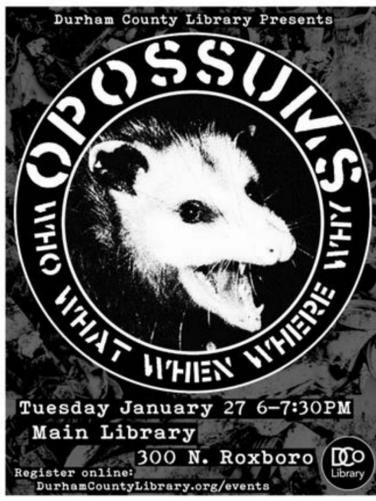

Come join a supportive group environment for self-paced digital skills courses. We'll be using Northstar Digital Literacy, a free online resource available to all Durham County Library patrons. A library staff member will be present to get you set up and answer questions as each participant moves through online modules on their own at their own pace. Northstar allows you to track your learning progress and earn badges or certificates for completing a course. These classes are best for learners who have at least basic keyboard and mouse skills.
